## **I. DIGEST OF SELECTED BOOKS, ARTICLES, AND DOCUMENTS**

---

### **LA GUERRE DE 1914-1918—(THE WAR OF 1914-1918)**

By Col. Duffour. (2 volumes with separate map case for each volume.) French text, 509 pages, 78 maps. (1923.) Instructors' File No. P.H. 70-2.

These volumes are the development of Colonel Duffour's series of seven lectures on the strategy of the World War, as delivered at the Ecole de Guerre in 1919-20.

The first four chapters discuss plans and operations to include the battle of the Marne, the three remaining chapters of Part I being devoted to the Allied pursuit after the Marne, the "Race to the Sea," and the Serbian, East Prussian, and Polish operations.

The years of 1915, 1916, and 1917, with their problems of strategy, morale, and world politics are described in Part II, while Part III details the preparation and the execution of the decisive action of 1918.

The original seven lectures of Colonel Duffour have been expanded into a work that may be accepted as the Ecole de Guerre view of the strategy of the World War. In the preface, the author states that it is not yet possible to describe exactly—even in their broad lines—the operations of 1914-1918. As further professional material becomes available it will be increasingly simple to confidently define causes and results. Comparison of Colonel Duffour's original text with the present volumes shows the development of his own idea as affected by the works of writers published since 1919-1920.

The entire first volume is taken up with the events of 1914 and the reader can follow the operations, day by day, of this warfare of movement.

The twenty-one tables, diagrams and maps accompanying the 1919-1920 lectures have been increased to forty-seven.

The work is considered of general value.

See I.S.M.A. No. 13, 1924, page 22. It is to be noted that Colonel Duffour's 1923 text is practically a new work.

W. R. W.

QUATRE ANNEES DE COMMANDEMENT, 1914-1918—(FOUR YEARS OF COMMAND, 1914-1918)

By Gen. Dubail, French Army. (3 Vols.) French text, 1055 pages, 63 sketches. (Paris: L. Fournier, 1922.) Library No. 940.331.

This work is the war diary of the author. The 1st Volume covers the period: 28 July, 1914, to 5 January, 1915, during which he commanded the First French Army. The 2d and 3d Volumes cover the period: 6 January, 1915, to 5 April, 1916, during which he commanded the French Group of Armies of the East.

The daily conferences with subordinates, visits of inspection, summaries of the situation, and orders are given with the greatest exactitude as are all conferences and correspondence with superiors. The principal operations, during the periods covered, are cited and explained in detail, from day to day, from the viewpoint of the higher commander. The tactical details of these operations are meager. On critical days, estimates of the situation by the army commander are given in some detail. Changes in tactical methods to suit modern conditions are recorded day by day as these changes were made necessary by the situation.

The first part of Volume I (127 pages) covers the operations of The First Army until stabilization set in along the Western Front in September, 1914. Dealing as they do with open warfare situations at the beginning of a great war, these pages cover the most interesting part of the diary.

From the beginning of stabilization, in September, 1914, until 5 April, 1916, when the author was relieved from command of the Group of Armies of the East and assigned to command the Armies of Paris, the diary takes the familiar form of the War Communique, citing from day to day the various local offensives in the Group of Armies of the East, the minor changes occurring from day to day due to these offensives or to hostile local offensives, and the effect upon the Group of Armies of the East of the great Allied and German offensives on other fronts.

As source books, these volumes should be of particular general value and of special value to the G-2 Section.

A. E. W.

## PRECEPTS AND JUDGEMENTS

By Marshal Foch. (Translated by Hilaire Belloc.) 359 pages. (New York: Henry Holt and Co., 1920.) Library No. 356.1.

"Precepts and Judgements" by Foch is evidently a compilation, prepared after the World War, of extracts from lectures delivered by Marshal Foch while an instructor at various military colleges before the war.

The largest portion of the book is devoted to short definitions of military terms arranged alphabetically, which should be of value to persons seeking general information about some particular military phrases.

The part of the book which is entitled "Judgements" is a series of short discussions covering various interesting phases of the French wars from 1812 to 1870, a long discussion of the strategy of the War of 1870, and a reference to the Russo-Japanese War.

The book is considered of general value to the instructor personnel as a whole.

E. S. H.

## CANNAE

German text, 392 pages, 79 separate maps and sketches. (Berlin: Mittler and Son, 1925.) Library No. 357.

This is a compilation of monographs and speeches by the late General Field Marshal Count von Schlieffen, evidently selected with a view to their bearing on the military events of the World War. It is preceded by an introduction and biography by Freiherr von Freytag-Loringhoven, General of Infantry, German Army.

The material for the text has been selected from Count von Schlieffen's "Collection of Writings" which was published in two volumes in 1913.

In the strict sense, this compilation does not constitute a military historical representation, but the author's strategical and tactical views on the conduct of war, based on the battle of Cannae and carried through the wars of Frederick the Great, Napoleon, the Austro-Prussian War (1866), the Franco-Prussian War (1870-71), and ending in a monograph on the next war (World War). There are added a monograph on generalship, and biographical sketches, all by the same author,

of the lives and deeds of Hannibal, Bismarck, Gneisenau and Benedec, including discussions of their respective merits as generals.

The underlying motive throughout is the idea of conducting war with a view to seeking a decision which aims at the destruction of the enemy, and the consequent necessity of inculcating in the infantry the spirit of relentless attack. This is the idea which Count von Schlieffen, as chief of the German General Staff, continuously endeavored to keep alive in the general staff.

Owing to the important rôle played in the World War by von Schlieffen's teachings and plans, this book is considered of general interest to all officers. It is of special value to the G-2 section on account of the historical examples with excellent maps and sketches contained therein.

A. B.

A PROPOS D'UN JUGEMENT ALLEMAND SUR LES CONCEPTIONS MILITAIRES FRANÇAISE—(CONCERNING GERMAN OPINION OF FRENCH MILITARY CONCEPTIONS)

By Col. Allehaut, French Army.—*Revue Militaire Française*, 1 Feb., 1925, p. 145; 1 Mar., 1925, p. 329; 1 Apr., 1925, p. 54. French text, 74 pages.

This series of articles is, in effect, a review of an article by General von Taysen of the German army, entitled "Material or Moral," in which General von Taysen makes a critical analysis of the tactical principles now taught in the French army, as contained in (1) "The Provisional Regulations for Infantry," February 1st, 1920, and (2) "The Provisional Instructions for the Tactical Employment of Large Units," October 6th, 1921.

The subject covered in the original article by General von Taysen and the French review are as follows:

- a. General discussion of the principles of combat, how taught in the French army.
- b. The tactical employment of artillery, cavalry, tanks, aviation, and infantry.
- c. French opinion hostile to the new law of the "Cadres" now in effect in France.
- d. Conclusions:

April-June, 1925

The French reviewers concede the justice of many of the criticisms offered by the German author in his article and stress the point that since the World War, France is placing more and more reliance on *matériel* in war and neglecting the questions of morale and effectives.

The article is considered of only moderate general value.

H. S. G.

#### MILITARY OPERATIONS, FRANCE AND BELGIUM, 1914

(Based on official documents.) By Brig. Gen. J. E. Edmonds, C.B., C.M.G., R.E. (Ret.), p.s.c. 548 pages, 18 maps bound in volume, 40 maps in separate case. (London: Macmillan and Co., Ltd., 1925.) Library No. 940.41.

This is the second volume of a detailed official history of British participation in the World War. This volume covers the period, 19 September, 1914, to 22 November, 1914. It includes the siege and fall of Antwerp, the extension of the front in Flanders, and the Battles of La Bassie, Armentieres, Messines, and Ypres. It is an account of an expeditionary force, without sufficient replacements and supplies, particularly ammunition, fighting against an enemy superior in numbers, organization, and equipment.

It is of general value to all officers because in the event of war, we would have very similar experiences to those related.

(NOTE:—For British review of this book see *The Army Quarterly* [British], April, 1925, page, 12; also, *Army, Navy, and Air Force Gazette*, March 28, 1925, page 147.)

C. A. H.

#### UNE BATAILLE DE RENCONTRE—VIRTON, 22 AOUT 1914—(A MEETING ENGAGEMENT—VIRTON, 22 AUGUST, 1914)

By Maj. A. Grasset, French Army.—*Revue Militaire Française*, 1 Jan., 1925, p. 14; 1 Feb., 1925, p. 183; 1 Mar., 1925, p. 358. French text, 76 pages, 5 maps.

This article is a detailed narrative of a meeting engagement which occurred in the first part of the World War, and during which the 8th Division of the IV Corps (French) encountered the 9th Division (German) in the vicinity of Virton.

The situation opens with a complete picture of the outpost and bivouac occupied by the 8th Division during the

night, 21-22 August, 1914, followed by a description of the formation of the advance guard, the march of the column of that division early the following morning, and the detailed development of the advance guard action on making contact with the German 9th Division just north of Virton.

The development of the action of the flank guard of the II Corps (French) whose right flank the advance of the 8th Division was to protect is also fully described to the minutest detail.

These two articles are excellent historical examples not only from a tactical, but from a troop leading point of view.

This article is by the same author as "Neufchateau" and "Ethe;" it is considered of general value to all officers.

C. W. J.

#### THE CAMPAIGN IN MESOPOTAMIA, 1914-1918 (VOL. II)

(History of the Great War based on official documents.) By Brig. Gen. F. J. Moberly, C.B., C.S.I., D.S.O., p.s.c. 581 pages, 20 maps. (London: H. M. S. O., 1924.) Library No. 940.4.

This volume commences with a discussion of the decision to advance to Baghdad and carries the story of the operations through to the fall of Kut.

There are many incidents and examples that will be found valuable for use as illustrations at these schools. Of particular interest is the general staff estimate of the situation in Syria and Mesopotamia dated, 19th October, 1915, given in Appendix VIII.

O. P. R.

#### CALLINICUS—A DEFENCE OF CHEMICAL WARFARE

By J. B. S. Haldane. 84 pages. (Kegan Paul & Co., Ltd., London, 1925.) Library No. 358.08.

An extremely interesting book written by an English chemist, its chief purpose being to show that the Washington Conference of 1922 should be denounced. It points out the humaneness of chemicals in war as opposed to other materials, and illustrates their effectiveness. The author brings out very cleverly the natural conservativeness of military men in general on new ideas.

The book is considered of general interest.

J. B. M.

FREISCHAREN UND FREIKORPS—(GUERRILLA FORCES AND FREE CORPS)

By Lieut. Gen. K. Adaridi. German text, 165 pages, 22 sketches. (Berlin: R. Eisenschmidt, 1925). Library No. 357.66.

The author, formerly a lieutenant general in the Imperial Russian Army, states that guerilla enterprises directed against the enemy's lines of communications will always play an important rôle in war; for example, the destruction of railways, telegraph and telephone lines, and surprise attacks on hostile billets, camps, bivouacs, or supply establishments. That, under certain conditions, such enterprises may even become necessary; for instance, when a country, having at its immediate disposal only weak military forces, is compelled to defend itself to the utmost against a foreign, more powerful invader, or when it is desired to gain time in which to create the necessary combat forces.

Notwithstanding the fact that such enterprises generally are directed against localities where no large hostile troop units are active, that they bring no decision, and that only weak forces participate therein, they are capable, nevertheless, of placing the enemy in difficult situations fraught with grave consequences, and of contributing materially to victory when conducted in cooperation with the army.

The author continues that these considerations point to the necessity of a thorough knowledge of the characteristics and activities of guerilla forces, in order to make possible their employment to the fullest advantage. That, however, such knowledge is more difficult of attainment than it may seem, for the existing number of publications devoted to the study of this subject is very limited. Furthermore, that the available publications date from a time when the conditions of warfare differed greatly from the present.

The author defines *Guerilla Forces* (*Freischaren*) as forces operating independently, at greater or lesser distances from the army, in rear or on the flanks of the enemy, with the object of inflicting on the latter the greatest possible damage. He distinguishes between Guerilla forces composed of troops detached for this purpose, usually called *Free Corps* (*Freikorps*), and those created by the citizenry itself which are composed of volunteers.

Concerning the latter, history teaches that such volunteer forces came into being as the result of special causes, such as revolution, subjugation of the land by an invader, etc.; i.e., at a time when the leaders of such movements are not in a position to ascertain sufficiently the views and sentiments of the persons who offer their services for the deliverance of their country. Hence, the danger that a part of such guerilla forces may be recruited from inferior classes or adventurers whose sole object it is to fish in troubled waters or to evade military service, but not to risk their lives. Such guerilla forces are a veritable pest to their own land; it is impossible to guide their efforts into proper channels or to regulate their activities. For example, bands of this nature appeared in considerable numbers during the French Revolution and during the second half of the Franco-Prussian War (1870-71).

The author closes his first chapter with a brief historical review, quoting numerous examples of the employment of guerilla forces by various countries under various conditions, drawing conclusions therefrom, and discussing the possibility of the appearance of such forces in wars of the future.

The remainder of the fourteen chapters is devoted to a detailed technical study of the general employment and the tactics and technique of Guerilla enterprises, supported by numerous historical examples with twenty-two sketches.

LIST OF CONTENTS:

I. Definition of the term Guerilla Forces (*Freischar*). Brief Historical Review of the Activities of Guerilla Forces. Possibility of their Appearance in Future Wars. Guerilla Forces in Connection with the Rising of the Populace.

II. General Characteristics of Guerilla Enterprises. Their Relation to Minor Warfare. Material and Moral Consequences of such Enterprises.

III. Dependence of Success of Guerilla Enterprises on the Attitude of the Population, on the Terrain, on the General Direction of the Enemy's Lines of Communications, on the Condition of the Army and the Situation in its Rear, on the Season of the Year, and on the Weather.

IV. Activities of Guerilla Forces during the different Periods of the War. Tasks which may be assigned to them.

V. Organization of Guerilla Detachments, their Number, Strength, and Replacement. Armament, Clothing, and Equipment of Guerilla Forces.

VI. Commander and Subordinate Commanders of Guerilla Detachments. Training of the Personnel.

VII. Preparatory Measures on Part of Army Headquarters and the Headquarters of Guerilla Forces. Reconnaissance. Preparation of Operation Plans. Signal Communications. Material Preparations.

*April-June, 1925*

VIII. Approach to the Objective. Instruction of the Personnel concerning the Enterprise. Organization of the March. Measures to expedite the March: Forced Marches, Employment of Wagons, Bicycles, Motor Vehicles, Snowshoes, Boats, and Railways. Selection of the Route of March and of the Time of Day. Security on the March and while in Shelter. Subsistence. Maintenance of Order and Discipline. Care of the Sick and Wounded.

IX. Activities of Guerilla Forces on Close Approach to the Objective. Reconnaissance. Decision. Selection of the Time and Method of Surprise Attack. Ambush. Measures to be taken after Successful Attack. Prisoners and Captured Supplies.

X. Surprise Attacks against Railways. Measures to safeguard Railways. Selection of suitable point for Surprise Attack against Railways. Approach toward Railway Line. Destruction of Railroads and Telegraph Lines. Feint Attacks against various Railway Establishments.

XI. Surprise Attacks against Localities, Isolated Posts, and weak Military Forces.

XII. Ambush. Surprise Attacks against Wagon Trains on the March, Supply Columns, and other Transports. Enterprises against Water Transports.

XIII. Guerilla Enterprises against Coast Lines.

XIV Guerilla Forces in connection with Stabilization.

Appendix: The German Free Corps after the World War.

This book contains an excellent presentation of the subject of guerilla warfare or, to suggest a more appropriate term, of independent raiding operations; it is marked by clearness and conciseness of expression and offers many valuable historical examples on which future study of this subject may be based.

It is considered of general value to all officers, especially since the subject matter contained therein finds particular application to the national defense situation in this country.

### III. REVIEW OF BOOKS

---

#### U. S. ARMY POSTS, 1925

Published by U. S. Army Posts, Columbus, Ga. (1925.) 143 pages.  
Library No. 355.32.

This is the initial number of an annual publication which satisfies a real need on part of the service for reliable data concerning the various army posts to which officers may be assigned for station. It contains information on the following subjects for every army post in the United States and their possessions: Troops.—Location.—Connections.—Climate.—Quarters, Bachelor and Married.—Servants.—Schools.—Amusements.—General Information.

The book is of general value to all officers.

A. B.

#### LA GUERRE DE SECESSION DES ETATS-UNIS—(THE WAR OF SECESSION IN THE UNITED STATES)

By Major Daille (French). French text, 128 pages. (1920-1922.)  
Instructors' File No. P.H. 70-4.

This comprises three lectures given (1920-22) by Major Daille, assistant professor of Military History at the Ecole de Guerre.

In the operations of the Civil War, the French note the genesis of many of the means employed during the period, 1914-1918—wire entanglements, balloons, attack in waves made on time schedule and certain periods of stabilization showing the accompanying features of trench warfare.

Part One discusses causes of the conflict and the military organization of both sides as affected by the political conceptions of the two opposing parties.

Part Two takes up the operations first in the east, then in the west and closes with a description of Grant's use of the western and eastern armies in bringing the war to a close.

In Part Three the author considers the innovations of the war and the parallel development of the more and more specialized personnel necessary to exploit new ideas.

Major Daille remarks that the European navies alone drew their lessons from the Civil War. European armies, bound by century-old organization, were less prompt in learning from the events of 1861-65 and, he adds, this resulted in certain gaps in instruction which persisted up to our own day.

The bibliography includes thirty-five titles and mentions the Rebellion Records.

This work is of interest to the Command, G-2, and G-3 Sections.

W. R. W.

#### JAPAN AND THE UNITED STATES, 1853-1921

By Payson J. Treat. 283 pages. (Boston: Houghton Mifflin Co., 1921.) Library No. 341.

This is a well written and comprehensive history of the commercial and diplomatic relations between Japan and the United States during the period covered. Since it covers mainly political matters its contents are of only moderate general value in the conduct of instruction at these schools.

R. O. H.

#### LA QUESTION DU PACIFIQUE—(THE QUESTION OF THE PACIFIC)

By G. Lacour-Gayet. French text, 32 pages. (1923.) Instructors' File No. P.H. 69-6.

After a short discussion of the early discoverers, the author states the steps whereby the Hawaiian Islands, with the important naval and commercial harbor of Honolulu, were annexed to the United States.

The troubles between Japan and China over Korea, resulting in the capture of Port Arthur by the Japanese and the ultimate action of Germany, France, and Russia in forcing the turnover of Port Arthur to the latter power are then described.

The author then takes up the prompt intervention of Germany in Shantung Province in 1898, with the subsequent demands on China which led to the establishing of the German power at Kiao-Chao. When, later, Great Britain secured a lease of Wei-Hai-Wei, the three European powers, plus Japan, were closely placed at points of vantage about the Gulf of Pe-chi-li.

This was in 1898 and, continues the author, this same year "a new power installed itself in this part of the Pacific; it was the power that we have seen establish itself in the Hawaiian Islands in 1897 and which, thereby, had revealed its claims to the domination of the Great Ocean."

Accusing the United States of imperialism in its actions, the writer details the Spanish-American War, the establishing of Manila as the supporting point of further American effort in the Pacific, and points out the placing of the American flag at Guam and Wake Island (connecting Honolulu and Manila) as a "fine application of the doctrine of Sea Power dear to the compatriots of Mahan and Roosevelt!"

The events of the Boxer uprising are described as a sop to the pride of the then German Emperor in ultimately having the forces of several great nations under the command of Marshal von Waldersee.

The writer claims that the Russian effort to the west was encouraged by Germany for reasons of her own and that the action of Mr. Roosevelt in "depriving the Japanese of the fruits of victory of the Russo-Japanese War left strong resentment in the hearts of the Japanese."

The expeditions of Perry to Japan is followed by an account of the Japanese movement into Hawaii and California. The California troubles are detailed and a full account of the cruise of the American fleet round the world is given, with reference, in closing, to the Root-Takahira "gentleman's agreement."

Japan's warlike activities of 1914 are characterized, not as participation in "the war" but as participation in "her war." The demands of Japan, the replies of China and the Shan-Tung clause of the treaty of Versailles are described, followed by an account of the evacuation of Shan-Tung. The author states that the Japanese are, from the commercial viewpoint, firmly anchored in Shan-Tung province—a region which the Chinese will be unable to exploit "without Japanese capital and engineers." It is noted that the increase of the lease on Port Arthur and the Manchurian railway south of Moukden to ninety-nine years virtually gives Japan a definite grip on the Liao-Tung peninsula.

Japan's Siberian adventure, claims the writer, has ended with the northern half of Sakhalin in virtual possession of the

Japanese. From this island the Japanese can draw large reserves of petroleum as well as coal. The coal is at a distance of only hundreds of yards from the ports at which it is loaded on vessels. Even should the Japanese be forced to return the northern half of the island to Russia, the Japanese influence will be so strong that they will be able to exploit the island's resources to their own profit.

The Japanese had hoped to hold on to Vladivostok but on October 25, 1922, Tokio ordered the Japanese troops to evacuate the town without conflict, thereby removing the last Japanese soldier from the Siberian mainland.

In connection with the Japanese-American dispute concerning the island of Yap, the writer states that, during the Washington Conference a "singular proposition" was made "at the expense of France." It was to the effect that France, as part payment of her war debt, was to give up the Society Islands, the Marquesas and Tuamotou archipelagos to the United States, which cession would provide a stepping-stone for the U. S. Navy on the Panama-Philippines route.

The last five pages of the pamphlet concern the Washington Conference of November 11th, 1921. It is stated that the object was to settle the complex questions existing between Japan and America and to consider also limitation of naval armaments.

The writer remarks that France has not yet ratified the accord of February 6, 1922, on the subject of naval tonnage—which, reduced France's share to the same amount as Italy or one-third the allotment given to the United States.

The treaty of December 13th, 1921, between the four powers: Great Britain, the United States, France, and Japan is mentioned.

The treaty of February 6, 1922, concerns the attitude to be maintained by the powers toward equal opportunities in China.

Mr. Lacour-Gayet states that it is certain that the Washington Conference consolidated the general peace. To the question "Has it suppressed the causes of a war?" it is replied that this latter is beyond the means of the most conciliating diplomacy.

For the moment, there is nothing to be said of Russia in the Far East.

But Japan is close to China and incites the natives of the Philippines toward independence. The day the Philippines are abandoned by the United States they will go to Japan. Will the United States allow this?

The California question is still open and there are "many black points in the Pacific question."

The writer concludes that the Pacific Ocean is vast, the Japanese and Americans not in close contact and that, beyond diplomatic notes, there will be no trouble.

He finally quotes a friend of President Roosevelt, who stated that the Pacific is large enough for both races.

This pamphlet is of general interest to all instructors and of special value to the G-2 section.

W. R. W.

#### A STUDY OF WAR

By Admiral Sir Reginald Custance, C.G.B., K.C.M.G., C.V.O., Hon. D.C.L., British Navy. 214 pages, 4 maps. (Boston: Houghton Mifflin Co.) Library No. 356.

This book is devoted principally to a discussion of war from the viewpoint of the National Objective and the Military Aim with special reference to naval warfare. The author introduces many historical examples to illustrate his views. In a chapter on the relations between the navy, army, and aery he discusses the advantages and disadvantages of a separate air service. The present controversy in our service as to the proper organization of the air service makes doubly interesting the author's discussion.

The author calls attention to the fact that the sea battle and the land battle are tactically independent, their technique different, and the battles and operations at sea and on land separate wholes; therefore, the navy and army are separately organized, the one to fight battles at sea, the other battles on land. He points out the close relationship and interdependence of the air service and the army in the air-land battle, and the similar relationship of the air service to the navy in the air-sea battle.

He calls attention to the necessity for unity of command of the forces engaged in the land battle and the same for the naval forces. After some discussion he reaches the conclusion

that the air force of a nation should not be a separate force as is Britain's but that it should be organized as a part of the army and navy as in the United States.

He states: "It is suggested that the late war supplies no evidence to show that the war in the air cannot be won, if aery is an integral part of the navy and army. The separate Air Ministry (Britain) was created during the war without any regard to the military relations between the navy, army, and aery, which were not then understood. Its creation was brought about chiefly by temporary difficulties of supply, which are not matters to govern the organization of an armed force."

The book is not of general value but is of interest to any one making a special study of the national objective and the military aim in war.

O. P. R.

#### THE PRINCIPLES OF MILITARY ART

By Maj. Sir Francis Fletcher-Vane, Bt. 183 pages, (London: J. M. Dent & Sons, Ltd., 1916.) Library No. 356.1.

This book was written in 1916 to present to the many new subalterns in the British service the fundamental Principles of Military Art. It was prompted by the author's observation of the fact that these young officers and some older ones had failed to grasp the idea that "all tactics and strategy depend greatly on the human heart, the spirit of the soldiers, and the enthusiasm with which they move to conquest or defeat."

In drills and exercises of all kinds the author observed that soldiers were cowed, knocked about and their spirit of originality broken by the methods of instruction then in force. The principles of war were not properly explained to them.

In searching for a remedy of this evil, the author became convinced that what subalterns required mostly was a grasp of the Principles of Military Art, and knowledge of how they are effected by "the spirit moving the human man."

The book presents in a simple manner the fundamental principles of drill, tactics, mobility, sketching and map reading, discipline, *esprit de corps*, military law, command, service, supply, observation, courage, and chivalry, and points out the

ways and means of presenting these principles to the rank and file of the army.

This work is considered of some general value to all officers, but particularly to those concerned with the subject of military psychology.

B. H. L. W.

#### THE CAMPAIGN OF LIAO-YANG

By Maj. H. Rowan-Robinson, R.A. 284 pages, 12 maps. (London: Constable and Co., Ltd., 1914.) Library No. 952.

An interesting and very readable account of this campaign. The most valuable chapters are the first three; which briefly trace the events leading up to the declaration of war, describe the theater of operations and its geographical influence on the campaign, and compare the Japanese and Russian organization, training, equipment, morale and discipline, leadership, preparation, and war plans; and the last, which expresses the author's conclusions from his study of the campaign. In this chapter he discusses the strategic envelopment, extension, tactical envelopment, counterattack, the use of reserves, the high points of the Russian and Japanese leadership, etc. Inserted in the intervening chapters are many sound comments on the various phases of the campaign.

The book is of moderate general value, chiefly as a framework on which to base a more detailed study of the campaign from the larger works that have been published on the subject.

H. C. G.

#### THE OFFICIAL NAMES OF THE BATTLES AND OTHER ENGAGEMENTS FOUGHT BY THE MILITARY FORCES OF THE BRITISH EMPIRE DURING THE GREAT WAR, 1914-1919

By British War Dept. 63 pages. (London: H. M. S. O., 1922.) Library No. 940.381.

This volume contains the reports of the British Battles Nomenclature Committee as approved by the Army Council.

The Committee of which Major General Sir John Headlam, K.B.E., C.B., D.S.O., was president was charged with the following duties:

a. To tabulate the actions fought in the World War and in the Third Afghan War (1919).

b. To classify these actions with a definite system of nomenclature which will denote their relative importance (e.g., the more important actions might be classed as battles, and the lesser ones as combats, etc.).

c. To define the geographical and chronological limits of each action.

The book is of general interest to all officers and of special value to the G-2 section.

A. B.

**KURZER STRATEGISCHER UEBERBLICK UEBER DEN WELTKRIEG 1914-1918—(A BRIEF STRATEGICAL SURVEY OF THE WORLD WAR, 1914-1918)**

By Lieut. Gen. Otto v. Moser, German Army, Ret. German text, 123 pages, 6 maps. (Berlin, 1923: Mittler and Son.) Library No. 940.36.

The first part of this volume contains a brief summary of the strategical situation in general and of the most important strategical results obtained for each year of the World War.

The second part contains a more detailed strategical study of each year of the World War giving in each case the strategical situation at the end of the year.

The text is accompanied by five maps showing the strategical line-up for each year of the war and a sixth map which pertains to the secondary theaters of operations in Asia and Africa.

In conclusion, the author states that, on critical examination of the strategical events of the World War taken in their entirety, the answer may be found to the question whether—as many believe—Germany was inevitably doomed to lose the war due to the absence of a common racial incentive, the lack of national unity, and on account of her alliance with Austria-Hungary and Turkey, nations predestined to downfall; or whether it was possible for Germany to gain victory notwithstanding these disadvantages, in spite of the overwhelming superiority of the Entente in men, weapons, equipment, money, and auxiliary sources of all kinds, and in spite of the complete isolation of the Quadruple Alliance from the sea.

In the opinion of the author, the latter part of the question may be answered in the affirmative.

It is true, the author continues, that the World War, more than any preceding war, was a war of masses, material, and technique, *i.e.*, mechanical forces; but moral value and the quality of the command and of the troops nevertheless remained as the preponderant factors.

The German army of 1914 and 1915 was sufficiently superior in efficiency and power, even after the failure of its first great campaign in the west in the year 1914, to be able to gain military victory in the years 1915 to 1917, provided the following measures had been taken:

If General von Hindenburg had been placed at the head of the German army in the autumn of 1914, and the entire military resources of the Quadruple Alliance on land and sea placed in his hands;

If the defeat of *one* of the two great opponents, the western or the eastern, had been consistently pursued in accordance with a fixed plan; instead of wavering back and forth;

If proper economy of the fighting strength of the German and Allied armies had been constantly observed, aiming at complete military victory as the object of the war, but seeking as a condition of peace only the conservation of the status of 1914, rather than an increase of power.

In the opinion of the author, the fulfilment of all of these conditions was within the reach of possibility.

The book is of general interest and of particular value to the instructors concerned with the subject of strategy, representing as it does the German view of the strategy of the World War.

A. B.

#### GERMAN STRATEGY IN THE GREAT WAR

By Bvt. Lt. Col. Philip Neame, V.C., D.S.O., p.s.c., Royal Engrs.  
132 pages. (London: Edward Arnold and Co., 1923.) Library No. 357.0.

The book is based on lectures given at the Staff College, Camberley in the period, 1920-1923.

No attempt is made to present a connected narrative of all the German operations during the war.

The most important operations are discussed in connection with their relation to German Strategy.

The year 1914 is dealt with more fully than the succeeding years, the reason for this being given by the author that "position warfare gave little scope to strategy." This view necessarily narrows the scope of the discussion of the operations following stabilization. It is true that no great strategy was exercised during this period, probably because the attention of commanders was absorbed by the ever present and pressing tactical needs, but the necessity for strategical ability was never more pressing.

To mention but two instances, the Germans failed to make any strategical use of their development of chemical warfare, or to coordinate their submarine warfare with their land operations.

The book is of interest to instructors in strategy.

A. L. R.

LA GUERRE EN ACTION—(WAR OF MOVEMENT): LE 22 AOUT  
AU 4<sup>e</sup> CORPS D'ARMÉE—(IV FRENCH CORPS, AUGUST  
20-23, 1914)

By Maj. A. Grasset (French). French text, 139 pages, 15 maps.  
(Paris: Berger-Levrault, 1924.) Library No. 940.411.

This book covers in narrative form, with many details, the operation of the IV French Corps, including a description of the 7th Division in a meeting engagement.

The author points out several conclusions to be drawn from this operation; namely,

1. Unsupported cavalry cannot gain sufficient information nor protect properly a column in march in close or wooded country. In the pursuit, the task of the cavalry requires boldness.

2. The commander of any force should have a command post or notify subordinates where to find him.

3. Terrain is a very great factor in defense.

4. The artillery of a division forms a long column. The commander should be at the head so as to have time for reconnaissance.

5. A division marching alone should have air service, a regiment of cavalry with some artillery, and a company of cyclists.

*April-June, 1925*

This book is of some military historical interest, but contains little that is of general value to the instructor personnel at these schools.

F. G.

#### THE MACEDONIAN CAMPAIGN

By Luigi Villari. 285 pages, 6 maps. (London: T. Fisher Unwin, Ltd.)  
Library No. 940.443.

This book presents an account of the Macedonian Campaign from the occupation of Salonica to the conclusion of the war. It describes more or less fully the part taken by the Italian contingent, the 35th Infantry Division. A considerable part of the book consists of criticism of General Sarraill, the French general in command of the allied forces in Macedonia until December 7, 1917, who is accused of occupying his time with political and commercial affairs to the detriment of military operations. The book is well written. It describes in great detail certain military operations, but the absence of any suitable maps makes difficult a detailed study of such operations. Considered of moderate general value.

J. P. M.

#### BRITISH CAMPAIGNS IN THE NEARER EAST, 1914-1918

By Edmund Dane. 2 volumes, total 549 pages, 30 maps. (London: Hodder and Stoughton.) Library No. 940.414.

Titles: British Campaigns in the Nearer East, 1914-1918;  
British Campaigns in the Nearer East, 1914-1918, Volume II.

The first named volume, published in 1917, contains general accounts of the following:

The causes leading up to the participation of Turkey in the World War;

Operations in the Gallipoli Peninsula;

Operations in Mesopotamia to include the capture of Ramadie, September 29, 1917;

The Salonika and Egyptian campaigns of 1916;

The campaign in Syria to include the capture of Jerusalem, December 9, 1917.

The second volume, published in 1919, contains general accounts of the following:

The Salonika and Egyptian campaigns of 1916;  
Operations in Mesopotamia following the fall of Kut,  
April 29, 1916;

Operations in Syria and Palestine;

The last phase of the operations in the Balkans against the  
Bulgarians;

The British forces in Italy, 1917-1918.

The reasons for designating the later publication "Volume II," except as an afterthought on the part of the author, are not apparent. It is not a continuation of the earlier volume which is not numbered, and the accounts of the Salonika and Egyptian campaigns of 1916, the operations in Mesopotamia following the fall of Kut, and the operations in Syria to include the capture of Jerusalem, which appear in the earlier volume are repeated in this so-called Volume II.

The author claims that his narrative is based on official records, but it appears doubtful that authentic and reliable official records were available at date of publication.

The author is not a professional soldier, his descriptions of operations are not always clear to a military reader, and his conclusions as to the causes of certain results are not always logical.

The maps accompanying the accounts are poor, and inadequate to a clear understanding of the operations described in the text.

The writer is strongly prejudiced in favor of the British. The volumes are of only moderate general value.

S. L. P.

LE CANON, ARTISAN DE LA VICTOIRE—(THE CANNON, ARTISAN OF VICTORY)

By Gen. Gabriel Rouquerol (French). French text, 108 pages. (Paris: Berger-Levrault.) Library No. 358.3.

General Rouquerol in a series of letters sets forth in a very interesting way, his views on the reorganization of the artillery of the French army, based on a wide experience before and during the World War, both as an artillery officer and as a general staff officer. He sketches the development of artillery organization and employment from the beginning of the 17th

*April-June, 1925*

century to the present time and draws his conclusions as to the proper organization of artillery for the future. The book is of interest to all officers and of special value to all artillerymen.

R. S. P.

#### TOPOGRAPHIC MAPPING

By Maj. L. B. Roberts, Engr. O.R.C. 150 pages. (Washington: Soc. of Amer. Mil. Engrs., The Mills Bldg., 1924.) Library No. 623.71.

Topographic Mapping has to do with representing the physical features of an area. Planimetric details are shown, and relief may be indicated by contours or other means.

The title of this book is somewhat misleading in that it deals so slightly with the showing of planimetric details.

The parts concerning the plane table, representation of relief, topographic ground forms, and aerial photography are useful.

This book is of special value only to engineer officers.

F. S. B.

#### PSYCHOLOGIE DU SOLDAT EN CAMPAGNE—(THE PSYCHOLOGY OF THE SOLDIER IN THE FIELD)

By Dr. Leon Wauthy. French text, 107 pages. (Paris: Charles-Lavauzelle, 1920.) Library No. 150.

The author served in the Belgian area during the war. The book was presented, toward the end of 1917, to the Belgian war department, with a view to its publication as a guide for officers in leadership and in the psychological study of soldiers. Permission to publish the book was refused, because it was considered inopportune to do so.

In preliminary chapters the author defines morale, and shows its importance as well as the difference between peacetime and war-time morale. The body of the book is devoted to a discussion of the factors which influence morale in war. The author's remarks on confidence and discipline are of particular interest.

The book is of moderate value to all officers; and of particular value to those looking up the questions of leadership and morale.

P. V. K.

CONFERENCES SUR L'HISTOIRE—(CONFERENCES ON HISTORY)

By Col. Tournes, French Army. French text, 158 pages. (Ecole Supérieure de Guerre, 1924.) Instructors' File No. P.H. 70-3.

A review, in four conferences, of the philosophy of the writing of history in France. Attention is directed therein to the false characters of memoirs and other publications to which readers have looked for personal expressions of opinion on various periods.

The work of the Historical Sections of the General Staffs of the French and German armies is described.

The third conference discusses the procuring of source material for the writing of military history, and the last conference includes the subjects of external and internal criticism.

These conferences are of special value only to the G-2 Section.

W. R. W.

MILITARY GEOGRAPHY OF THE BRITISH COMMONWEALTH

By Maj. A.E.W. Salt, B.A., M.A. 401 pages, 9 maps. (Aldershot, England: Gale and Polden, Ltd.) Library No. 942.2.

This volume is based on lectures given at the Army School of Education, Newmarket, the Army School of Administration, Chisleton, the School of Military Engineering, Chatham, and to audiences of army officers and other public officials, Regular and Territorial, of the British Commonwealth. It is primarily intended as an aid to British officers in their preparation for examinations for promotion and at the Staff College.

Synopsis of Contents:—The Development of the British Commonwealth.—The Organization of the Commonwealth.—The Resources of the Commonwealth.—The Economic Basis of Commonwealth Defense.—The Defense of Great Britain.—Communication by Land and Sea.—Communication by Air.—Communications by Cable and Wireless.—The Dominion of Canada.—The Colony of Newfoundland.—The Union of South Africa.—The Commonwealth of Australia.—The Dominion of New Zealand.—India.—The British Possessions in Africa.—The Near and Middle East.—The Problem of the Pacific.—The Land Forces of the Commonwealth.—The Imperial Conference.—New Europe.—Native Races of the Commonwealth.

April-June, 1925

This work supplies a volume of reliable information concerning the history and development of the British Commonwealth and its problems in their especial relation both to economics and strategy.

The book is considered of general interest to all officers and of special value to the G-2 Section.

A. B.

OFFICIAL HISTORY OF AUSTRALIA IN THE WAR OF 1914-1918:  
VOL. VII, SINAI AND PALESTINE

By H.S. Gullett. 844 pages, 77 maps, 83 illustrations. (Australia: Angus and Robertson, Ltd., 1923.) Library No. 940.32.

This volume deals, in a narrative style, with the military operations of Australian troops during the British campaigns in Sinai, Palestine, and Syria during the years of 1916-1918. In some respects it treats of the British forces in Egypt as a whole, but covers in detail only the fighting and campaign life of the Australians. The political and military effect upon the Central Powers that resulted from the British evacuation of Gallipoli is clearly and interestingly discussed in the opening chapter. The subject matter is illustrated by sketches and maps bound into the volume.

This book is of some general interest and of special value to the G-2 Section.

E. R.

THE NEW ZEALANDERS IN SINAI AND PALESTINE

By Lt. Col. C. Guy Powles, C.M.G., D.S.O. 284 pages, 13 maps. (Auckland, N.Z.: Whitcombe and Tombs, Ltd., 1922.) Library No. 940.331.

A historical account of the *New Zealand Mounted Rifle Brigade* which, together with the Australian Light Horse Brigade, was organized into the Anzac Mounted Division for service in Sinai and Palestine. It covers the period from the arrival of the brigade at Alexandria from Gallipoli in December, 1915, and ends with its disbandment on June 30, 1919.

The book is well written, but its value is greatly reduced through the fact that it is a eulogistic rather than a historical

representation, comparable in some respects to our own division histories.

Of special value only to the cavalry and air service sections.

J. G. Q.

#### WAR AND REVOLUTION IN RUSSIA, 1914-1917

By Gen. Basil Gourko, Chief of Russian Imperial Gen. Staff, Nov., 1916-Mar., 1917; Commdr.-in-Chief of Western Armies, Mar., 1917-June, 1917. 420 pages. (New York: MacMillan Co., 1919.) Library No. 940.412.

General Gourko served as commander of a cavalry division, a cavalry corps, an army corps, an army, as chief of the Imperial General Staff, and as Commander-in-Chief of the Western Armies. The book is mainly a personal narrative, and his broad experience and great ability permit him to write authoritatively on the operations of the Russian armies in the World War. The book is well written and sets forth clearly the events leading to the Russian Revolution in 1917, and the final disaster. The effect of the economic situation and the resultant shortage of munitions is adequately treated.

A vivid and interesting picture of the influence of repeated disasters and an adverse economic situation, is presented, and the Russian disaster is ascribed to a national loss of morale as a result of these causes.

The book has historical value and is of interest to instructors in psychology, leadership, logistics, and strategy.

A. L. R.

#### THE REBIRTH OF TURKEY

By Clair Price. 234 pages. (New York: Thomas Seltzer, 1923.) Library No. 949.6.

In "*The Rebirth of Turkey*," Clair Price, who as a press representative, observed the progress of affairs in Turkey during the World War, outlines the successive events which had an influence upon Turkish nationalism during and immediately following the War. The book considers the political rather than the military nature of events and is therefore of only moderate general value in the work at these schools.

E. H.

TASCHENKALENDER FÜR DAS DEUTSCHE REICHSHEER—(POCKET ALMANAC FOR THE GERMAN NATIONAL ARMY)

By Major Gen. W. Freiherr v. Firccks, German Army. German text, 348 pages. (Georg Bath, Berlin.) Library No. 355.4.

List of Contents:—The Constitution of the German Republic with Reference to the Military.—The National Authorities.—The War Department.—The Administrative System of the Army.—Territorial Divisions and Stations of the German Army.—Public Records.—The National Defense Laws.—Replacement and Discharge of Personnel.—Allowances and Privileges.—General Legal Requirements.—Conditions of Military Precedence.—General Service Provisions.—Interior Economy.—Exterior Service Provisions.—Punishments.—Courts Martial.—Regulations Governing Officers' Mounts.—The Law Governing Disclosure of Military Secrets.—Financial and Accounting System.—Pay.—Subsistence.—Uniform and Insignia.—Equipment.—Troop Movements and Travel Allowances.—Transportation.—Damage Claims in Connection with Field Exercises.—Shelter.—The Medical System.—Recreation.—The Postal, Telegraph, and Telephone Systems.—Life Insurance for the German Army.

This book contains a wealth of detailed information on the general organization and administration of the present German Army. It is of special value to the G-2 Section.

A. B.

A WAR MINISTER AND HIS WORK (REMINISCENCES OF 1914-1918)

By Gen. von Stein, late Quartermaster-General and War Minister (1916-1918), (in Germany). 271 pages. (London: Skeffington and Son, Ltd.) Library No. 940.31.

Some of the subjects touched upon in various parts of this book are: the German peace-time maneuvers, pages forty-nine and fifty; the problems of various German Chiefs of Staff, pages sixty-two and sixty-three; the problem of dealing with the civilian population, pages seventy-six, seventy-seven, and ninety-two; the problem of subsistence for the military and

civilian population, pages one hundred sixteen and one hundred seventeen; the disposal of prisoners, page one hundred nineteen; the procurement of manpower for the war, page one hundred thirty; the instructor personnel of the War Academy, page one hundred thirty-seven; and the handling of grievances and punishments, pages one hundred fifty-five to one hundred fifty-nine.

Chapter II of this volume, dealing with the personalities of Field-Marshal Count von Moltke, Field-Marshal Count Waldersee, Field-Marshal Count von Schlieffen, and General von Moltke is of interest.

One item in the book (see page sixty-four) is: “\* \* \* the first person to realize the necessity of a German march through Belgium was an American. Schlieffen mentioned this in passing in the course of one of his lectures.”

This statement is made as above without further elaboration.

The book has been written from memory in a reminiscent vein. It sets forth the author's views in an interesting and human way. It might prove of some value for collateral reading, as it furnishes a background to a few of the incidents of the World War.

As a whole, this book is of only moderate value, since it touches only very sketchily upon a few of the problems of the war.

O. H. S.

#### THE GERMAN SECRET SERVICE

By Col. W. Nicolai (Chief of the German Secret Service during the World War). Translated by George Renwick, F.R.G.S. 299 pages. (London: Stanley Paul & Co., Ltd.) Library No. 357.23.

This is a sequel to a similar book on intelligence, published by the author in 1920 which dealt principally with the control of the press and propaganda. The present work is concerned with secret missions, intentional espionage and counterespionage during and after the World War.

The object of the book appears to be to prove that Germany's neighbors, particularly France, Russia, and Great Britain, surrounded her in peace with a network of spies against which she was helpless as she had no counterespionage

April-June, 1925

system, and that she neglected military espionage against Russia and Great Britain.

Interesting descriptions are given of methods of espionage used by the allies in the occupied territories of Belgium and France and in the prison camps in Germany. The author shows that of those condemned to death in Germany for espionage during the war, two-thirds were of German nationality.

For a critical review of this book, and an exposition of errors contained in it, see *The Army Quarterly* (British), for July, 1924, page 413.

This book is considered of general interest to the instructor personnel as a whole and of special value to the G-2 Section.

P. V. K.

#### THE NEW GERMAN CONSTITUTION

By Rene Brunet. (Translated from the French by Joseph Gollomb.) 339 pages. (New York: Alfred A. Knopf, 1922.) Library No. 943.

In this book the author discusses the defects of the German Constitution of April 16, 1871, the causes underlying the fall of the old regime in November, 1918, and the reasons for the adoption of the new constitution in 1919. As the work is devoted almost exclusively to questions of politics, economics, and governmental administration, it is considered of negative value from the viewpoint of these schools.

H. S. G.

#### THE INNER HISTORY OF THE BALKAN WAR

By Lt. Col. Reginald Rankin, F.R.G.S. 569 pages, 2 maps. (London: Constable and Company, Ltd., 1914.) Library No. 949.7.

A compilation of data of more or less doubtful authenticity, such as newspaper articles, statements of individuals, and notes from a correspondent's diary.

The appendix gives a general outline of allied military organization as it existed in 1914.

The book is considered of negative value to these schools.

Training Management.—Morale. Lecture	P.H. 180-135
Training Management.—New Developments during War. Lecture	P.H. 180-150
Training Management.—Obstacles. Lecture	P.H. 180-142
Training Management.—Programs and Schedules. Test	P.H. 105-58
Training Management.—Regular Army Infantry Training in Peace. Test	P.H. 105-57
Training Management.—Training in Theater of Operations. Lecture	P.H. 180-152
Transportation. Examination	P.H. 105-89

April-June, 1925

## THE CAVALRY SCHOOL

Artillery. Map Problem.....	P.H. 107-26
Attack, Mounted vs. Mounted. Conference.....	P.H. 181-38
Cavalry vs. Cavalry. Map Problem.....	P.H. 107-25
Cavalry Reconnaissance. Map Maneuver.....	P.H. 107-34
Combat. Map Maneuver.....	P.H. 107-59
Combat. Tactical Ride.....	P.H. 107-48
Combat.—Cavalry vs. Cavalry. Map Exercise P.H. 107-23, & P.H. 107-30	
Combat.—Cavalry vs. Cavalry. Conference.....	P.H. 181-31
Combat Intelligence. Map Exercise.....	P.H. 107-28
Consolidated Schedule, Advanced Class, April, 1925.....	P.H. 107-42
Consolidated Schedule, Troop Officers' Course.....	P.H. 107-22
Consolidated Schedule, Special Advanced Equitation Class.....	P.H. 107-47
Consolidated Schedule, Troop Officers' Course, April, 1925.....	P.H. 107-55
Counter Reconnaissance. Conference Problem.....	P.H. 107-61
Counter Reconnaissance. Map Problem.....	P.H. 107-37
Defense of a Locality. Conference Problem.....	P.H. 107-50
Delaying Action. Conference Problem.....	P.H. 107-46
Delaying Action. Map Exercise.....	P.H. 107-58
Delaying Action. Map Problem.....	P.H. 107-47
Deployed Defense. Conference.....	P.H. 101-40
Deployed Defense. Conference Problem.....	P.H. 107-60
Field Artillery. Conference.....	P.H. 107-49
Field Artillery. Pamphlet.....	P.H. 181-34
Field Fortifications. Map Problem.....	P.H. 107-52
Field Fortifications. Text No. 3.....	P.H. 107-56
Flank Guard. Conference.....	P.H. 181-35
Flank Guard. Map Problem.....	P.H. 107-53
Halt for the Night. Map Exercise.....	P.H. 107-21
Infantry Battalion in Attack. Conference.....	P.H. 181-37
Infantry Battalion Acting Alone. Map Exercise.....	P.H. 107-35
Inspection of Horseshoeing. Pamphlet.....	P.H. 181-33
Liaison. Demonstration.....	P.H. 107-43
Logistics. Map Exercise.....	P.H. 107-38
Machine Guns. Test No. 1.....	P.H. 107-45
Machine Guns in Defense. Map Exercise.....	P.H. 107-51
Maps and Reports Pertaining to Staff Activities. Conference.....	P.H. 181-36
Movement by Rail. Conference.....	P.H. 181-39
Movement by Rail.—Illustrative Problem. Conference.....	P.H. 107-44
Night Attack. Map Exercise.....	P.H. 107-29
Night Operations. Pamphlet.....	P.H. 181-32
Outpost. Map Exercise.....	P.H. 107-31
Position Defense. Map Exercise..... P.H. 107-40, &	P.H. 107-54
Possible Formation of Cavalry Brigade on March. Chart.....	P.H. 107-33
Problem in Decision and Execution. Map Problem.....	P.H. 107-39
Pursuit. Map Exercise.....	P.H. 107-27
Rear Guard. Map Problem.....	P.H. 107-41
River Crossing. Map Maneuver.....	P.H. 107-24

## COAST ARTILLERY SCHOOL

Citizens' Military Training Camps. Com. Report.....	P.H. 148-15
Inspections as Part of Training. Committee.....	P.H. 148-17
National Guard. Committee.....	P.H. 148-18
Preparation and Presentation of a Topical Lecture. Committee.....	P.H. 148-16

Reserve Officers' Training Corps. Com. Report.....	P.H. 148-14
Summer Training Camps. Committee.....	P.H. 148-19
Training Orders, Programs, and Schedules. Committee Problem.....	P.H. 148-20
Troop and Post Schools. Committee Problem.....	P.H. 148-21

## FIELD ARTILLERY SCHOOL

Accompanying Battery and Accompanying Gun in Attack. Demonstration.....	P.H. 99-36
Advance Guard. Map Exercise.....	P.H. 99-12
Advance Guard. Map Problem.....	P.H. 99-11
Army Correspondence Courses. Conference.....	P.H. 187-22
Artillery Brigade Commander and Staff in Defensive. Ill. Problem.....	P.H. 99-27
Artillery in Defense of a Def. Zone. Illustrative Problem.....	P.H. 100-101
Artillery in Defense of a Def. Zone. Map Exercise.....	P.H. 100-100
Artillery Brigade with 155-mm. (how) Regt. Attached in a Position Defense. Terrain Exercise.....	P.H. 100-104
Artillery Regt. and Bn. in a Defensive. Illustrative Problem.....	P.H. 99-25
Artillery Staff Duties. Map Problem.....	P.H. 100-102
Attack against a Defensive Zone. Map Exercise.....	P.H. 99-49
Attack in a Meeting Engagement. Map Exercise.....	P.H. 99-7
Attack against Position Defense. Illustrative Problem.....	P.H. 99-4
Battalion of Divisional Artillery in a Flank Guard. Field Exercise 3.....	P.H. 99-40
Battalion of Divisional Artillery in a Rear Guard. Tact. Ride.....	P.H. 100-108
Battalion of 155-mm. Howitzers in Attack of a Defensive Zone. Field Exercise 5.....	P.H. 99-41
Brigade, Regimental, and Battalion Training Programs and Schedules. Illustrative Problem.....	P.H. 99-50
Combat Orders. (Bn. of Div. Arty. in Attack.) Map Exercise.....	P.H. 99-28
Corps and Army Artillery in Defense of a Defensive Zone. Ill. Problem.....	P.H. 99-8
Corps Arty. Brigade in a Position Defense. Illustrative Problem.....	P.H. 99-15
Counter Reconnaissance. (Cavalry). Map Problem.....	P.H. 100-98
Delaying Action. Conference.....	P.H. 187-21
Div. Artillery Brigade. River Crossings (Offensive). Tact. Ride.....	P.H. 99-20
Div. Artillery Brigade in Defense of a Defensive Zone. Map Problem.....	P.H. 100-97
Div. Artillery in Withdrawal from Action. Illustrative Problem.....	P.H. 100-107
Estimate of the Situation. Map Exercise.....	P.H. 99-6
Estimate of the Situation. Map Problem.....	P.H. 99-45
Examination of Bridge as to Suitability for Crossing Artillery. Terrain Exercise.....	P.H. 100-99
Halt at the Conclusion of a March. Map Exercise.....	P.H. 99-48
Horse Arty. of a Cav. Div. in the Attack. Illustrative Problem.....	P.H. 99-9
Night Operations, Div. Arty. Pamphlet.....	P.H. 187-20
Organization of a Strong Point. Siting Machine Guns in a Center of Resistance. Map Exercise.....	P.H. 99-34
Preparation of a Field Exercise. Exercise.....	P.H. 99-47
Preparation of a Map Problem. Exercise.....	P.H. 99-39
Preparation of a Terrain Exercise. Exercise.....	P.H. 99-37
Problem of Decision. Map Problem.....	P.H. 99-33

April-June, 1925

Rear Guard. Conference.....	P.H. 187-19
Rear Guard Action. Map Exercise.....	P.H. 99-13
Reconnaissance and Occupation of Bn. and Btry. Positions. Pract. Ex.....	P.H. 99-26
Reconnaissance and Occupation of Regt. Bn. Positions. Tact. Ride.....	P.H. 99-31
Reconnaissance and Occupation of Positions for Bn. and Btry. of Light Artillery. Tact. Ride.....	P.H. 99-10
Regiment of Div. Artillery in a Withdrawal from Action. Map Problem.....	P.H. 99-16
Regiment of Div. Field Artillery in a Meeting Engagement. Field Ex. 8.....	P.H. 99-42
Regiment of 75-mm. Guns, Horsedrawn, in Attack of a Posi- tion Defense. Field Exercise 13.....	P.H. 99-52
Regiment of 75-mm. Guns, Horsedrawn, in Defense of a Meeting Engagement. Field Exercise 10.....	P.H. 99-44
Regiment of 75-mm. Guns, Horsedrawn, in Position De- fense and Counterattack. Field Exercise 12.....	P.H. 99-51
Regiment of 155-mm. Howitzers in Attack of a Position De- fense. Field Exercise 9.....	P.H. 99-43
Reinforced Brigade. Map Problem.....	P.H. 99-35, & P.H. 100-109
Rifle Company in Attack. Terrain Exercise.....	P.H. 99-22
T. L.—Arty. Bn. Commander in an Attack against a Pre- pared Position. Illustrative Problem.....	P.H. 99-18
T. L.—Artillery Brigade Commander in an Attack against a Prepared Position. Illustrative Problem.....	P.H. 99-17
T. L.—Artillery Regt. Commander in an Attack against a Prepared Position. Illustrative Problem.....	P.H. 99-14
T. L.—The Battery in the Offensive. Illustrative Problem.....	P.H. 99-32
Use of Details. Field Exercise.....	P.H. 99-46

## ENGINEER SCHOOL

Artillery Battalion in Attack. Illustrative Problem.....	P.H. 101-35
Cavalry. Tactical Ride.....	P.H. 101-61
Cavalry Advance Guard. (Illustrative Problem.) Conference.....	P.H. 101-53
Cavalry, General Characteristics and Employment. Reprint, T. R.....	P.H. 173-22
Cavalry, Offensive Combat. Reprint, T.R.....	P.H. 173-20
Division, Corps and Army Artillery. Lecture.....	P.H. 173-25
Division Engineer, Duties of. Lecture by Maj. F. B. Wilby, G. S.....	P.H. 173-18
Elementary Logistics. (Illustrative Problem.) Conference.....	P.H. 101-60
Engineer Supply of an Infantry Division. (Logistics.) Conference.....	P.H. 173-27
Field Engineering. Terrain Exercise.....	P.H. 101-58
Field Engineering.—Demolitions. Tactical Ride.....	P.H. 101-59
Infantry Battalion in the Attack against a Defensive Zone. Tactical Ride.....	P.H. 101-54
Infantry Battalion in Attack against a Prepared Position. Map Problem.....	P.H. 101-39
Machine Guns in Attack. Map Problem.....	P.H. 101-37
Medical Service in the Division. Lecture by Lt. Col. J. P. Hall, M. C.....	P.H. 173-17
Methods of Training—Art of Public Speaking. Lecture.....	P.H. 173-39
Military History—Mexican War. Lecture.....	P.H. 173-46
Movements by Motor Transport. Conference.....	P.H. 173-45
Movements by Motor Transport. Illustrative Problem.....	P.H. 101-56

<i>Operations of the Second Army in the Third Phase of the Meuse-Argonne. Monograph.</i>	P.H. 173-38
<i>Organization of an Engr. Regt. (Combat) for Supply. (Log.) Conference.</i>	P.H. 173-29
<i>Permanent Forts, Seacoast Defense and Naval Power—The Fortress of the Future. Conference.</i>	P.H. 173-40
<i>Reconnaissance. Tactical Ride.</i>	P.H. 101-57
<i>Riot Duty.—Employment of Troops by Federal Authorities. Lecture.</i>	P.H. 173-42
<i>Riot Duty.—Equipment and Movement of Troops; Mob Tactics. Lecture.</i>	P.H. 173-43

April 1901

London, England

My dear Sir,  
I have the honor to acknowledge the receipt of your letter of the 14th inst. in relation to the proposed purchase of the land for the proposed road. I am sorry to hear that the proposed purchase of the land for the proposed road is not successful. I am sorry to hear that the proposed purchase of the land for the proposed road is not successful.

I am sorry to hear that the proposed purchase of the land for the proposed road is not successful. I am sorry to hear that the proposed purchase of the land for the proposed road is not successful. I am sorry to hear that the proposed purchase of the land for the proposed road is not successful.

I am sorry to hear that the proposed purchase of the land for the proposed road is not successful. I am sorry to hear that the proposed purchase of the land for the proposed road is not successful. I am sorry to hear that the proposed purchase of the land for the proposed road is not successful.

I am sorry to hear that the proposed purchase of the land for the proposed road is not successful. I am sorry to hear that the proposed purchase of the land for the proposed road is not successful. I am sorry to hear that the proposed purchase of the land for the proposed road is not successful.

I am sorry to hear that the proposed purchase of the land for the proposed road is not successful. I am sorry to hear that the proposed purchase of the land for the proposed road is not successful. I am sorry to hear that the proposed purchase of the land for the proposed road is not successful.

I am sorry to hear that the proposed purchase of the land for the proposed road is not successful. I am sorry to hear that the proposed purchase of the land for the proposed road is not successful. I am sorry to hear that the proposed purchase of the land for the proposed road is not successful.

I am sorry to hear that the proposed purchase of the land for the proposed road is not successful. I am sorry to hear that the proposed purchase of the land for the proposed road is not successful. I am sorry to hear that the proposed purchase of the land for the proposed road is not successful.

I am sorry to hear that the proposed purchase of the land for the proposed road is not successful. I am sorry to hear that the proposed purchase of the land for the proposed road is not successful. I am sorry to hear that the proposed purchase of the land for the proposed road is not successful.

I am sorry to hear that the proposed purchase of the land for the proposed road is not successful. I am sorry to hear that the proposed purchase of the land for the proposed road is not successful. I am sorry to hear that the proposed purchase of the land for the proposed road is not successful.

Yours faithfully,  
J. H. P. [Signature]
